

GUIDE TO FEDERAL FUNDING OPPORTUNITIES

MAKING THE FEDERAL GOVERNMENT WORK FOR NEW YORK

CONGRESSWOMAN NITA M. LOWEY

Dear Friend,

As a federal legislator, one of my highest priorities is to assist local governments with critical projects that improve the quality of life in our region. Many communities and non-profit organizations ask for assistance in securing federal funds. This guide provides information on opportunities available to individuals, communities, and businesses in New York.

In a dynamic budget environment, funding levels and application periods for each program change every year. This guide will be periodically updated.

I hope that you find this information helpful. If you want further information on how to access funds, please don't hesitate to contact Cory Hasson in my office at (914) 428-1707, (845) 639-3485, or Cory.Hasson@mail.house.gov. If you would like to sign up for my e-newsletter, please visit my website at <http://lowey.house.gov/>.

Sincerely,

Nita M. Lowey

Grant: *Americorps and other service grants*

Description: Grants cover a wide range of areas designed to promote service.

Department: Corporation for National and Community Service

Eligibility: Various organizations

Website: <http://www.nationalservice.gov/build-your-capacity/grants/funding-opportunities>

Grant: *Museum and Library Grants*

Description: Grants can be used for a variety of purposes to assist libraries and museums.

Department: Institute of Museum and Library Services

Eligibility: Various organizations

Website: http://www.ims.gov/applicants/available_grants.aspx

Grant: *General Legal Services Grants*

Description: Funding is provided to qualified attorneys, organizations, and entities that provide civil legal services to low-income persons and others in need.

Department: Legal Services Corporation

Eligibility: Eligible applicants include non-profit organizations with the purpose of providing legal assistance to eligible clients, attorneys and firms providing such assistance, State and local governments as well as sub-State regional planning or coordinating agencies.

Website: <http://grants.lsc.gov/apply-for-funding/general-legal-services-grants>

Grant: *NEA Literature Fellowships: Translation Projects, FY 2018*

Description: Through fellowships to published translators, the Arts Endowment supports projects for the translation of specific works of prose, poetry, or drama from other languages into English.

Department: National Endowment for the Arts

Eligibility: Individuals

Website: <https://www.arts.gov/grants-individuals/translation-projects>

Grant: *Our Town FY 17*

Description: Organizations may apply for creative placemaking projects that contribute to the livability of communities and place the arts at their core. Our Town offers support for projects in two areas: • Arts Engagement, Cultural Planning, and Design Projects that represent the distinct character and quality of their communities. These projects require a partnership between a nonprofit organization and a local government entity, with one of the partners being a cultural organization. Matching grants range from \$25,000 to \$200,000. • Projects that Build Knowledge About Creative Placemaking. These projects are available to arts and design service organizations, and industry, policy, or

university organizations that provide technical assistance to those doing place-based work. Matching grants range from \$25,000 to \$100,000.

Department: National Endowment for the Arts

Eligibility: City or township governments, Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education, County governments, Independent school districts, State governments, Special district governments, Private institutions of higher education, Native American tribal governments (Federally recognized), Public and State controlled institutions of higher education

Website: <https://www.arts.gov/grants-organizations/our-town/introduction>

Grant: *Research: Art Works*

Description: The National Endowment for the Arts' Office of Research & Analysis makes awards to support research that investigates the value and/or impact of the arts, either as individual components of the U.S. arts ecology or as they interact with each other and/or with other domains of American life.

Department: National Endowment for the Arts

Eligibility: Official applicant organizations must be nonprofit, tax-exempt 501(c)(3), U.S. organizations; units of state or local government; or federally recognized tribal communities or tribes. This may include, but is not limited to, colleges and universities.

Website: <https://www.arts.gov/grants/apply-grant/grants-organizations>

Grant: *Humanities Initiatives at Community Colleges*

Description: Humanities Initiatives at Community Colleges support community colleges' commitment to educating students on a variety of educational and career paths. The program funds curricular and faculty development projects that help strengthen humanities programs and/or incorporate humanistic approaches in fields outside the humanities.

Department: National Endowment for the Humanities

Eligibility: Community Colleges

Website: <http://www.neh.gov/grants/education/humanities-initiatives-community-colleges>

Grant: *Collaborative Research Grants*

Description: Collaborative Research Grants support interpretive humanities research undertaken by two or more collaborating scholars, for full-time or part-time activities for periods of one to three years.

Department: National Endowment for the Humanities

Eligibility: scholars, consultants, and research assistants

Website: <http://www.neh.gov/grants/research/collaborative-research-grants>

Grant: *Digital Humanities Startup Grants*

Description: This program encourages innovation in the digital humanities by awarding small grants to support the planning or initial stages of digital initiatives for the humanities. Funding may be used for planning and developing new digital tools for preserving, analyzing, and making accessible digital resources, including libraries and museums' digital assets, innovative technologies for public programming and education, and research on new approaches to best practices in the study of humanities.

Department: National Endowment for the Humanities

Eligibility: Non-profit organizations and state and local governmental agencies may apply.

Website: <http://www.neh.gov/grants/guidelines/digitalhumanitiesstartup.html>

Grant: *Humanities Collections and Reference Resources*

Description: This program provides foundation for scholarship, education, and public programming in the humanities. Funding supports efforts to preserve and extend the life of important collections of books and manuscripts, photographs, sound recordings and moving images, archeological and ethnographic artifacts, art and material culture, electronic records, and digital objects.

Department: National Endowment for the Humanities

Eligibility: Non-profit organizations as well as state and local governments may apply. Individuals may not apply.

Website: <http://www.neh.gov/grants/preservation/humanities-collections-and-reference-resources>

Grant: *Museums, Libraries, and Cultural Organizations: Implementation Grants*

Description: support final scholarly research and consultation, design development, production, and installation of a project for presentation to the public

Department: National Endowment for the Humanities

Eligibility: Implementation grants are for shovel ready projects for which a full walkthrough and presentation of ideas already exist.

Website: http://www.neh.gov/grants/guidelines/AHCO_ImplementationGuidelines.html

Grant: *Preservation and Access Education and Training*

Description: This program provides funding to assist in training the staff of cultural institutions to be effective stewards of humanities collections.

Department: National Endowment for the Humanities

Eligibility: Non-profit organizations as well as state and local governments may apply. Individuals may not apply.

Website: <http://www.neh.gov/grants/guidelines/pet.html>

Grant: *Common Heritage*

Description: The program supports day-long events organized by community cultural institutions, which members of the public will be invited to attend. At these events experienced staff will digitize the community historical materials brought in by the public. Project staff will also record descriptive information—provided by community attendees—about the historical materials.

Department: National Endowment for the Humanities

Eligibility: Small and medium sized institutions, especially those who have not previously received NEH support

Website: <http://www.neh.gov/grants/preservation/common-heritage>

Grant: *Preservation Assistance Grants for Smaller Institutions*

Description: This program assists small and mid-sized institutions, such as libraries, museums, historical societies, town and county records offices and colleges and universities to improve their ability to preserve their humanities collections.

Department: National Endowment for the Humanities

Eligibility: Non-profit organizations as well as state and local governments may apply. Individuals may not apply.

Website: <http://www.neh.gov/grants/guidelines/pag.html#eligibility>

Grant: *Sustaining Cultural Heritage Collections*

Description: This program consists of two grants to assist cultural institutions in preserving large and diverse holdings of humanities materials by supporting preventive conservation measures to mitigate deterioration and prolong the useful life of collections. The first grant assists planning and development of a conservation plan, and the second grant is to be used for implementation.

Department: National Endowment for the Humanities

Eligibility: Non-profit organizations as well as state and local governments may apply. Individuals may not apply.

Website: <http://www.neh.gov/grants/guidelines/SCHC.html>

Grant: *Digital Projects for the Public Grants*

Description: Digital Projects for the Public grants support projects that significantly contribute to the public's engagement with the humanities.

Department: National Endowment for the Humanities

Eligibility: Any U.S. nonprofit organization with IRS tax-exempt status is eligible, as are state and local

governmental agencies and federally recognized Indian tribal governments. Individuals are not eligible to apply

Website: <http://www.neh.gov/files/grants/digital-projects-the-public-june-8-2016.pdf>

Grant: *Media Projects: Production Grants*

Description: The Media Projects program supports film, television, and radio projects that engage general audiences with humanities ideas in creative and appealing ways.

Department: National Endowment for the Humanities

Eligibility: Any U.S. nonprofit organization with IRS tax-exempt status is eligible, as are state and local

governmental agencies and federally recognized Indian tribal governments. Individuals are not eligible to apply.

Website: <http://www.neh.gov/grants/public/media-projects-production-grants>

Grant: *Industry/University Cooperative Research Centers (I/UCRC)*

Description: This program develops partnerships among industry, academic institutions, and government to conduct research that contributes to the Nation's research infrastructure base and enhances the engineering and science workforce.

Department: National Science Foundation

Eligibility: Universities and two- and four-year colleges may apply.

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5501

Grant: *Manufacturing Machines and Equipment*

Description: This program supports research leading to improved manufacturing, including skill-based and knowledge-based activities, advanced technologies, and systems and equipment that will enable the conversion of renewable resources into energy products on a large scale.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13346

Grant: *NSF Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM)*

Description: This program provides grants to institutions of higher education to support scholarships for academically talented students with financial need who wish to enter the STEM workforce.

Department: National Science Foundation

Eligibility: Academic institutions

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5257

Grant: *NSF Small Business Innovation Research Program (SBIR)*

Description: This program is intended to increase the incentive and opportunity for small businesses conducting cutting-edge, high risk, high quality scientific, engineering or science research that could have a high potential for economic payoff if research is successful.

Department: National Science Foundation

Eligibility: Small businesses, including joint ventures and partnerships which qualify as a small business, may apply. In addition, a minimum of two-thirds of the research must be performed by the small business.

Website: <http://www.nsf.gov/eng/iip/sbir/>

Grant: *Partnerships for Innovation: Accelerating Innovation Research - Research Alliance*

Description: This program is intended to assist the movement of academic research discoveries into the marketplace by leveraging investments the NSF has made in research alliances.

Department: National Science Foundation

Eligibility: Universities and two- and four-year colleges may apply.

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504973

Grant: *Research Coordination Networks*

Description: This program supports means in which researchers can share information, coordinate planned research activities, and advance science and education through communication.

Department: National Science Foundation

Eligibility: Non-profit, non-academic organizations, independent museums, observatories, research labs, professional societies and similar organizations within the U.S. associated with research or educational activities, and universities and two-and four-year colleges.

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11691

Grant: *Integrated Earth Systems*

Description: The program provides an opportunity for collaborative, multidisciplinary research into the operation, dynamics, and complexity of Earth systems that encompass the core of the Earth through the surface. Innovative projects that explore new research directions beyond those typically considered by core programs of the Division of Earth Sciences (EAR) are encouraged. Investigations may include all or part of the continental, terrestrial and deep Earth at all temporal and spatial scales.

Department: National Science Foundation

Eligibility: Non-profit, non-academic organizations, independent museums, observatories, research labs, professional societies and similar organizations within the U.S. associated with research or educational activities, and universities and two-and four-year colleges.

Website: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16589

Grant: *Environmental Engineering*

Description: The goal of the Environmental Engineering program is to support transformative research which applies scientific and engineering principles to avoid or minimize

solid, liquid, and gaseous discharges, resulting from human activities on land, inland and coastal waters, and air, while promoting resource and energy conservation and recovery.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505332

Grant: *Energy for Sustainability*

Description: The goal of the Energy for Sustainability program is to support fundamental engineering research that will enable innovative processes and solutions for the sustainable production of electricity and fuels, and energy storage.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505339

Grant: *Environmental Sustainability*

Description: The goal of the Environmental Sustainability program is to promote sustainable engineered systems that support human well-being and that are also compatible with sustaining natural (environmental) systems.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505338

Grant: *Long Term Research in Environmental Biology*

Description: The Long Term Research in Environmental Biology (LTREB) Program supports the generation of extended time series of data to address important questions in evolutionary biology, ecology, and ecosystem science.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13544

Grant: *Broadening Participation in Engineering*

Description: The Broadening Participation in Engineering (BPE) Program is a Directorate-wide initiative dedicated to supporting the development of a diverse and well-prepared engineering workforce. Across every educational juncture (e.g., elementary, secondary, and postsecondary levels), efforts to improve engineering interests, preparation, connections, experiences, and opportunities among underrepresented groups is of major importance to BPE

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504870

Grant: *Cyber learning and Future Learning Technologies*

Description: The purpose of the Cyber learning and Future Learning Technologies program is to integrate opportunities offered by emerging technologies with advances in what is known about how people learn to advance three interconnected thrusts: Innovation: inventing and improving next-generation genres (types) of learning technologies, identifying new means of using technology for fostering and assessing learning, and proposing new ways of integrating learning technologies with each other and into learning environments to foster and assess learning; Advancing understanding of how people learn in technology-rich learning environments: enhancing understanding of how people learn and how to better foster and assess learning, especially in technology-rich learning environments that offer new opportunities for learning and through data collection and computational modeling of learners and groups of learners that can be done only in such environments; and Promoting broad use and transferability of new genres: extracting lessons from experiences with these technologies that can inform design and use of new genres across disciplines, populations, and learning environments; advancing understanding of how to foster learning through effective use these new technologies and the environments they are integrated into.

Department: National Science Foundation

Eligibility: Unrestricted

Website: https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504984

Grant: *Astronomy and Astrophysics Research Grants*

Description: The Astronomy and Astrophysics Research Grants (AAG) Program provides individual investigator and collaborative research grants for observational, theoretical, laboratory, and archival data studies in astronomy and astrophysics.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16574

Grant: *Louis Stokes Alliances for Minority Participation*

Description: Louis Stokes Alliances for Minority Participation (LSAMP) program assists universities and colleges in their efforts to significantly increase the numbers of students matriculating into and successfully completing high quality degree programs in science, technology, engineering and mathematics (STEM) disciplines in order to diversify the STEM workforce.

Department: National Science Foundation

Eligibility: Universities and Colleges - Universities and two- and four-year colleges (including community colleges) accredited in, and having a campus located in, the US acting on behalf of their faculty members.

Website: https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13646

Grant: *Research Experiences for Teachers (RET) in Engineering and Computer Science*

Description: his program supports active long-term collaborative partnerships between K-12 Science, Technology, Engineering, Computer and Information Science, and Mathematics (STEM) teachers and community college and university faculty and students to bring knowledge of engineering or computer and information science and engineering as well as technological innovation to pre-college/community college classrooms.

Department: National Science Foundation

Eligibility: Universities and two- and four-year colleges may apply.

Website: <https://www.nsf.gov/pubs/2015/nsf15536/nsf15536.htm>

Grant: *Ocean Technology and Interdisciplinary Coordination*

Description: The Oceanographic Technology and Interdisciplinary Coordination (OTIC) Program supports a broad range of research and technology development activities.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12724

Grant: *STEM + Computing Partnerships*

Description: The STEM+Computing Partnerships program seeks to significantly enhance the learning and teaching of science, technology, engineering, mathematics (STEM), and computing by K-12 students and teachers through research on, and development of, courses, curriculum, course materials, pedagogies, instructional strategies, models, or pedagogical environments that innovatively integrate computing into one or more other STEM disciplines, or integrate STEM content into the teaching and learning of computing.

Department: National Science Foundation

Eligibility: Unrestricted

Website: https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505006

Grant: *Genealogy of Life*

Description: The goals of the Genealogy of Life (GoLife) program are to resolve the phylogenetic history of all life and diverse forms and to integrate this genealogical architecture with underlying organismal and environmental data. The ultimate vision of this program is an open access, comprehensive Genealogy of Life that will enable the comparative framework necessary for testing

questions in systematics, evolutionary biology, ecology, paleontology, and other fields.

Department: National Science Foundation

Eligibility: Unrestricted

Website: https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5129

Grant: *National Science Foundation Research Traineeship Program (NRT)*

Description: The NSF Research Traineeship (NRT) program is designed to encourage the development and implementation of bold, new, and potentially transformative models for STEM graduate education training. The NRT program seeks proposals that ensure that graduate students in research-based masters and doctoral degree programs develop the skills, knowledge, and competencies needed to pursue a range of STEM careers.

Department: National Science Foundation

Eligibility: Various organizations

Website: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16503

Grant: *National Robotics Initiative (NRI)*

Description: The goal of the National Robotics Initiative is to accelerate the development and use of robots in the United States that work beside or cooperatively with people.

Department: National Science Foundation

Eligibility: Various organizations

Website: <http://www.nsf.gov/pubs/2016/nsf16517/nsf16517.htm>

Grant: *Improvements in Facilities, Communications, and Equipment at Biological Field Stations and Marine Laboratories*

Description: Biological Field Stations and Marine Laboratories (FSMLs) are off-campus facilities for research and education conducted in the natural habitats of terrestrial, freshwater, and marine ecosystems. FSMLs support environmental and basic biological research and education by preserving access to study areas and organisms, by providing facilities and equipment in close proximity to those study areas, and by fostering an atmosphere of mutual scientific interest and collaboration in research and education. To fulfill these roles, FSMLs must offer modern research and educational facilities, equipment, communications and data management for a broad array of users. In recognition of the importance of FSMLs in modern biology, NSF invites proposals that address these general goals of FSML improvement.

Department: National Science Foundation

Eligibility: Non-profit, non-academic organizations: Independent museums, observatories, research labs, professional societies and similar organizations in the U.S. associated with educational or research activities. -Universities and Colleges - Universities and two- and four-year colleges (including community colleges)

accredited in, and having a campus located in, the US acting on behalf of their faculty members. Such organizations also are referred to as academic institutions.

Website: https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5449

Grant: *General & Age-Related Disabilities Engineering (GARDE)*

Description: The General & Age Related Disabilities Engineering (GARDE) program supports fundamental engineering research that will lead to the development of new technologies, devices, or software that improve the quality of life of persons with disabilities. Research may be supported that is directed toward the characterization, restoration, and/or substitution of human functional ability or cognition, or to the interaction of persons with disabilities and their environment. Areas of particular interest are disability-related research in neuroengineering and rehabilitation robotics.

Department: National Science Foundation

Eligibility: Unrestricted

Grant: *Joint NSF/NIH Initiative on Quantitative Approaches to Biomedical Big Data*

Description: The National Science Foundation (NSF) and the National Institutes of Health (NIH) recognize that fundamental questions in basic, clinical, and translational research could benefit greatly from multidisciplinary approaches that involve experts in quantitative disciplines such as mathematics, statistics, and computer science. The Quantitative Approaches to Biomedical Big Data Program is designed to support research that addresses important application areas at the intersection of the biomedical and data sciences by encouraging inter- and multi-disciplinary collaborations that focus on innovative and transformative approaches to address these challenges.

Department: National Science Foundation

Eligibility: Unrestricted

Website: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16573

Grant: *Robert Noyce Teacher Scholarship Program*

Description: The National Science Foundation Robert Noyce Teacher Scholarship Program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 STEM teachers. The program invites creative and innovative proposals that address the critical need for recruiting and preparing highly effective K-12 STEM teachers, especially in high-need local educational agencies.

Department: National Science Foundation

Eligibility: One or more universities, four-year colleges, and/or two-year colleges (including community colleges, tribal colleges, and minority-serving institutions) accredited

in, and having a campus located in, the United States, or consortia of such institutions, or U.S. nonprofit entities that have established consortia among such institutions of higher education. In addition to institutions of higher education, professional societies and similar organizations that are directly associated with educational or research activities may submit proposals related to Track 4: Noyce Research.

Website: <http://www.nsf.gov/pubs/2016/nsf16559/nsf16559.pdf>

Grant: *Drug Free Communities Program*

Description: This program provides funding to community-based coalitions that organize to prevent youth substance use.

Department: Office of National Drug Control Policy

Eligibility: Coalitions consisting of youth, parents, business, media, schools, law enforcement, youth-servicing organizations, civic and volunteer groups, healthcare professionals, State or local governments, or other organizations involved in reducing dependency on drugs and alcohol.

Website: <http://www.whitehouse.gov/ondcp/information-for-potential-applicants>

Grant: *Wildlife Services*

Description: The purpose of the program is to alleviate wild animal damage through conducting surveys, campaigns to reduce wild animal damage including bird problems at airports, develop methods to control wild animal damage, and provide technical advice and assistance.

Department: U.S. Department of Agriculture- APHIS

Eligibility: State and local governments, federally recognized Indian tribal governments, public/private nonprofit organizations, nonprofit institutions of higher education, and individuals.

Website:

Grant: *Local Food Promotion Program*

Description: The purpose of this program is to increase domestic consumption of and access to locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets, by developing, expanding, and providing outreach, training, and technical assistance to, or assisting in the development, improvement, and expansion of local and regional food business enterprises.

Department: U.S. Department of Agriculture - AMS

Eligibility: Agricultural cooperatives and other agricultural business entities (including community supported agriculture networks or associations) local governments, nonprofit corporations, public benefit corporations, economic development

corporations, regional farmers market authorities, Tribal governments, or other entities as the Secretary may designate

Grant: *Child Nutrition Technology Innovation Grant*

Description: Encourages State agencies that administer child nutrition programs to propose innovative technology solutions to improve accountability and efficiency.

Department: U.S. Department of Agriculture - FNS

Eligibility: State Governments

Website: <http://www.fns.usda.gov/child-nutrition-technology-innovation-grant-cn-tig>

Grant: *Farm to School Grant*

Description: Grants to improve access to local foods in schools.

Department: U.S. Department of Agriculture - FNS

Eligibility: State and local agencies, agricultural producers, non-profits, pre-K-12 public and private non-profit schools.

Website: <http://www.fns.usda.gov/fy17-farm-school-grant>

Grant: *National School Lunch Program Equipment Assistance Grants*

Description: Assists school food authorities in purchasing equipment to serve healthier meals, with an emphasis on more fruits and vegetables.

Department: U.S. Department of Agriculture - FNS

Eligibility: State agencies competitively award equipment assistance grants to eligible school food authorities with high priority given to high need schools.

Website: <http://www.fns.usda.gov/nslp-equipment-assistance-grants>

Grant: *Healthy Body Healthy Spirit*

Description: The Food and Nutrition Service's Supplemental Nutrition Assistance Program (SNAP) provides funding for the SNAP Nutrition Education Program (SNAP-Ed). SNAP-Ed is central to SNAP's efforts to improve nutrition and prevent and reduce obesity among SNAP recipients. The Food Stamp Act of 1977 mandated creation and distribution of nutrition education materials to program participants. Subsequent legislation has expanded upon this requirement. The Healthy, Hunger-Free Kids Act (HHFKA) of 2010 established SNAP-Ed as a Nutrition Education and Obesity Prevention Program and changed its financial structure to that of 100 percent Federal grant funding to States with no State contribution or match.

Department: U.S. Department of Agriculture - FNS

Eligibility: Organization/Entity that demonstrates its ability to meet the guidelines for providing nutrition education to low income populations and to accomplish the goals and outcomes of SNAP-Ed.

Grant: *Farmers' Market Supplemental Nutrition Assistance Program Support Grants*

Description: Support the participation of farmers' markets in the Supplemental Nutrition Assistance Program (SNAP.) Specifically, the goals of FMSSG are to increase SNAP accessibility and participation at farmers' markets, and support the establishment, expansion, and promotion of SNAP/Electronic Benefits Transfer (EBT) services at farmers' markets.

Department: U.S. Department of Agriculture - FNS

Eligibility: Farmers markets participating in SNAP

Grant: *Agriculture and Food Research Initiative - Childhood Obesity*

Description: This AFRI Challenge Area addresses the priority of childhood obesity prevention. Obesity is the number one nutritional problem in America. The U.S. food supply contains an abundant amount of foods that are high in energy with appealing taste, but which are low in nutrient content. Food is an integral part of the process that leads to obesity and USDA has a unique responsibility for the food system in the United States. The long-term outcome for this program is to reduce the prevalence of overweight and obesity among children and adolescents ages 2 to 19 years. In order to achieve this outcome, this program will support multi-function Integrated Research, Education, and/or Extension Projects and Food and Agricultural Science Enhancement (FASE) Grants that

address one of the Program Area Priorities (see Childhood Obesity Prevention RFA for details).

Department: U.S. Department of Agriculture - AMS

Eligibility: Land grant institutions, some for profit organizations, individuals.

Website: <http://www.nifa.usda.gov/funding/afri/afri.html>

Grant: *Agriculture and Food Research Initiative - Food Security*

Description: The long-term outcomes for this program are to increase global food availability through increased sustainable food production and to decrease the number of food insecure individuals, families, and communities by addressing key constraints to food accessibility and implementing solutions that enhance sustainable food systems. To achieve these outcomes, this program will support single-function Extension Projects, multi-function Integrated Research, Education, and/or Extension Projects, and Food and Agricultural Science Enhancement (FASE) Grants that address one of the Program Area Priorities.

Department: U.S. Department of Agriculture - AMS

Eligibility: Land grant institutions, some for profit organizations, individuals.

Website: <http://www.nifa.usda.gov/fo/afriglobalfoodsecurity.cfm>

Grant: *Agriculture and Food Research Initiative - Foundational Program*

Description: The AFRI Foundational Program is offered to support research grants in the six AFRI priority areas to continue building a foundation of knowledge critical for solving current and future societal challenges. The six priority areas are: Plant Health and Production and Plant Products; Animal Health and Production and Animal Products; Food Safety, Nutrition, and Health; Renewable Energy, Natural Resources, and Environment; Agriculture Systems and Technology; and Agriculture Economics and Rural Communities. Single-function Research Projects and Food and Agricultural Science Enhancement (FASE) Grants are expected to address one of the Program Area Priorities.

Department: U.S. Department of Agriculture - AMS

Eligibility: Land grant institutions, some for profit organizations, individuals.

Website: <https://nifa.usda.gov/funding-opportunity/agriculture-and-food-research-initiative-foundational-program>

Grant: *Beginning Farmer and Rancher Development Program*

Description: The U.S. average age of farm operators is currently 57. This grant would provide funding to beginning farmers and ranchers. A beginning farm is considered to be one that is operated by one or more operators who have 10 years or less of experience operating a farm or ranch.

Department: U.S. Department of Agriculture - AMS

Eligibility: The recipient must be a collaborative, State, tribal, local, or regionally-based network or partnership of public or private entities.
